The following thirty-six Lots have been heavily smeared with Vaseline in an attempt to preserve their condition from the elements obtaining at the coastal location in which the collection was formed. No attempt has yet been made to clean the coins, it being considered advisable to leave this for the purchasers to execute in their own fashion, although this petroleum product may be quite easily dispersed by soaking the coins in paraffin.

of Coins and Medals.

*A*FTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections. The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is
